High Speed Landing Craft LC-16

June 17, 2020

Product Overview

The LC-16 is the same platform as the LC-9 and LC-12 and also includes a few upgrades.

- Twin Suzuki 350 dual props
- Extendable hydraulic bow ramps
- 400 gallon fuel tank
- Complete SeaStar steering system with joystick control

The LC16 with the [Maxgate](#) landing door and heavy duty hydraulics not only allows you to drive large vehicles on and off the beach, it will easily lift a truck as well.

The mobile console allows the captain to position himself anywhere necessary on the boat, ensuring maximum visibility, comfort, and safety, regardless of the configuration of the load.

The open design of this boat allows the use of custom deck components that can be placed or removed as needed. Components can include cabins, elevated bridges, pump tanks, dry cargo containers, haz-mat kits, row seating, and more.
